MisterB Leather Chaps

Description

The tight-fitting-ass-lifting-and-crotch-pronouncing Mister B Leather Chaps have been famous for their perfect quality and cut ever since the first Mister B store opened up in Amsterdam back in 1994. No wonder these are Mister B's all time classic signature leathers. Handcrafted in our leather workshop from strong yet supple 100% aniline full grain cow leather.

All Mister B Leather Chaps have inside zips on the legs and can be worn over a pair of jeans, a jock, or simply with nothing underneath for full genital access. Our Chaps have a sexy low cut waist band with decorative stitching and a buckle with double thorn in the front so you

can adjust it. A lace in the middle of the back allows for even more adjustability.

During the design and the pattern making of our leather chaps, we spent a lot of time to make the curves of the opening for the butt absolutely sexy and perfect, and they are. They accentuate and push up your buttocks, without ugly peep in holes where the legs are attached to the waist band.

The legs are tight fitting and really hug your upper legs. And - as you may expect from a quality pair of leathers such as Mister B's - the legs are cut out of a single hide (no seams on the knees). Ideally, the legs ought to be a bit too tight when you get them, because when you break them in, the leather stretches and becomes even more supple. Once broken in, a pair of Mister B leathers will last you a very long time without becoming baggy, because the leathers we use are sturdy enough (1.3 - 1.4 mm).

- 100% aniline full grain cow leather 1.3 ? 1.4 mm thick.
- Individually handcrafted in our leather workshop.
- Low waist, tight fit.
- Length: very long. Finishing on length is a courtesy service in our stores.
- See sizing chart for indicative sizing.
- Side stripes and / or pipings are optional extras.
